/ AIM<sup>IS1</sup>

ENJOY SEATING PERFORMANCE.

# COMPLETE RANGE

QUICKLY DELIVERED IN OUR WEEKLY-MODE!

**Diversity, from one mould: AIM<sup>IS1</sup> is a comprehensive range of office chairs which meets all workplace requirements.** A suitable AIM<sup>IS1</sup> can be easily identified for every employee in every position. The modular design concept ensures that the unmistakable character of this range of chairs is always retained. Each version of AIM<sup>IS1</sup> offers lots of room and exudes solid design and comfort. The design is well received and has gained widespread acceptance. **The choice of AIM<sup>IS1</sup> is always the right one – however large or diverse the property to be furnished.**

**AIM<sup>IS1</sup>**  
**RIGHT ON**  
**TARGET.**

1S26

1S32

1S02

**Those who sit comfortably, feel good – and those who feel good while working, work better.** AIM<sup>IS1</sup> is therefore committed to comfortable seating. Its roomy and comfortable upholstery is inviting and offers optimal comfort while seated. As soon as you settle down in the chair, AIM<sup>IS1</sup> creates an atmosphere of well-being in the workplace. This applies to the different office swivel chairs and visitor chairs.

**MORE COMFORTABLE SITTING**  
**MORE PLEASANT WORKING.**

4S50

1S32

# SUPPORT IN ABUNDANCE.

**AIM<sup>1S1</sup>** offers plenty of space for an efficient workflow: Thanks to the large backrest surface as well as spacious and soft comfortable upholstery, you can enjoy a special seating experience and concentrate all of your energy on your work. Choose from a wide range of cover fabrics and colours to create the design which suits you and your furnishings best.

1S01

1S32

**It is good to be backed up at work.** AIM<sup>IS1</sup> is always ideally equipped for this: all of the backrests are available with optional lumbar support. Two different backrest heights are also available – a lower one and a high one. AIM<sup>IS1</sup> therefore reduces the pressure on the body, creates comfort and **forms the ideal basis for productive working.**

**Coat hanger and headrest:**

The optional headrest provides relaxation while making phone calls or during informal conversations. It can also be supplied with a coat hanger, if required.

**VISITORS**  
ARE ALWAYS WELCOME  
WITH AIM<sup>IS1</sup>.

5S50

4S50

Visitors are also very welcome to enjoy the seating comfort offered by AIM<sup>IS1</sup>. The upholstered visitor chair from AIM<sup>IS1</sup> is available as a stackable four-legged version or as a stackable or non-stackable cantilever model – all optionally available with stacking protection. The visitor chairs in the BUDDY<sup>IS3</sup> collection also fit perfectly with AIM<sup>IS1</sup>. Thus there is the perfect chair to suit every guest.

570B

**Joint success requires transparency.** The mesh backrest of AIM<sup>IS1</sup> transforms this ideal work concept into a design statement. This chair is characterised by its light and elegant design. The mesh gives AIM<sup>IS1</sup> a special light look and an uncomplicated, youthful appearance. This makes it the ideal solution for modern, dynamic working teams. The AIM<sup>IS1</sup> with mesh backrest is perfect for combining with the mesh visitor chairs from the BUDDY<sup>IS3</sup> range.

**CREATE  
TRANSPARENCY.**

1S23

# A GOOD WORKING ENVIRONMENT.

**A breath of fresh air for new ideas.** AIM<sup>IS1</sup> provides the ideal working environment with its mesh backrest. The mesh is breathable and prevents heat build-up. The mesh backrest also impresses in terms of comfort and body support. It moulds to the body, follows the contours and provides support. AIM<sup>IS1</sup> proves: light design and comfort do not have to be contradictory.

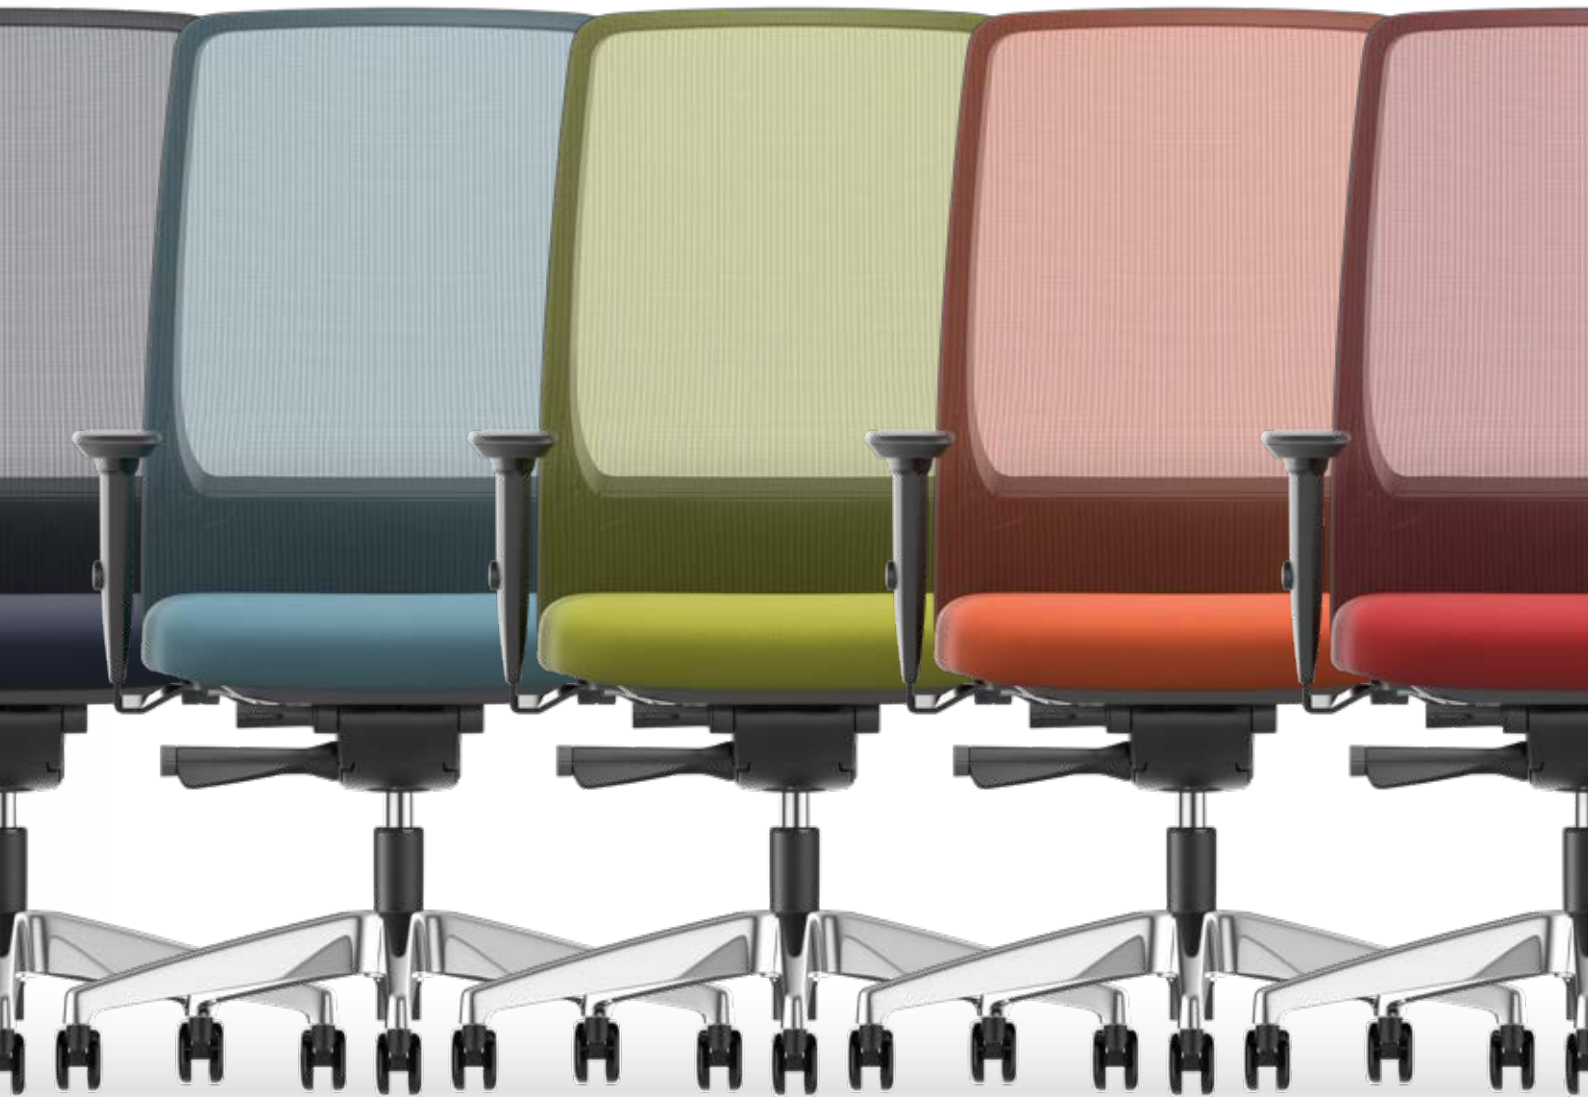

**AIM<sup>IS1</sup> looks good in any room.** It can be used to design attractive workplaces, without the chair dominating the room. AIM<sup>IS1</sup> blends seamlessly into any environment. This applies particularly to the transparent mesh version.

# COLOUR BRINGS PLEASURE.

**New:** The mesh backrest is available in several attractive colours.  
This considerably extends the possible colour range.

1S05

## BASE MESH

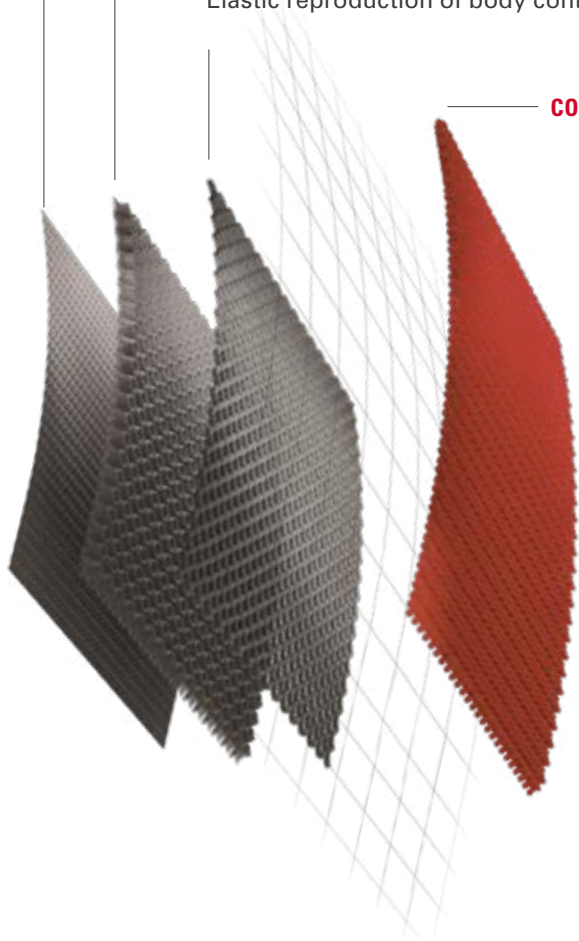

### COMFORT UPHOLSTERY

Soft, ergonomic upholstery layer

### SOFT-COVER UPHOLSTERY

Elastic reproduction of body contours

### COVER FABRIC

# CHILLBACK. THE BEST OF TWO WORLDS.

**Something new is created when two strengths are combined.** This also applies to AIM<sup>IS1</sup> with its chillback backrest. The advantages of upholstery and mesh are combined here. The elastic multi-layer structure enables the chillback backrest to follow the contours of the body as only a mesh can. At the same time, the upholstery creates a pleasantly soft surface and provides exceptional comfort when seated.

# SLENDER. SPORTY. BEAUTIFUL.

**Elegance is the most beautiful form of efficiency.**

The **chillback backrest** pairs comfort and an enjoyable seating experience with minimal upholstery in volume terms. This backrest version emphasises the light design of AIM<sup>1S1</sup> and offers exceptional upholstery characteristics. Both the low and high version of the backrest offer plenty of space with a sporty, filigree profile.

1S25

**AIM<sup>IS1</sup> offers plenty of space.** Both the low and high version of the **chillback backrest** offer plenty of space and impress with their filigree design. AIM<sup>IS1</sup> offers an exceptional seating experience thanks to this smart combination of light design and comfortable features.

570B

**What could be better than offering visitors the best seat?** The visitor chairs from BUDDY<sup>IS3</sup> are extremely comfortable, visually appealing and blend perfectly into the environments where other seating solutions such as swivel chairs are present. And even in the case of larger rooms which need to be equipped with lots of chairs, BUDDY<sup>IS3</sup> is a true friend to fitters and users alike. The visitor chairs work perfectly with the mesh and chillback versions of the AIM<sup>IS1</sup> swivel chair range.

As a cantilever chair, BUDDY<sup>IS3</sup> is dynamic, beautiful in shape and classic without being conservative. Its slender lines create uncomplicated elegance. In its four-legged version, BUDDY<sup>IS3</sup> is perfect for use in training and seminar areas. Its light structure and easy stackability are clear advantages for event logistics. The cantilever chair can be stacked in fours and the four-legged version in sixes.

**THE VERY BEST  
FOR GUESTS.**

# CHILLBACK

# DROP BY! VISITOR CHAIRS AT A GLANCE.

**Work in the office is not restricted to the desk.** AIM<sup>IS1</sup> offers a wide range of swivel chairs and visitor chairs to meet every requirement. The AIM<sup>IS1</sup> includes three different upholstered visitor chairs available with and without armrests: a cantilever, a stackable cantilever and a stackable four-legged model.

**The BUDDY<sup>IS3</sup> range also offers four additional stackable visitor chairs and the design fits in with the mesh and chillback versions from AIM<sup>IS1</sup>:** a four-legged chair with mesh backrest, a cantilever chair with mesh backrest and a four-legged chair and cantilever chair with a slender chillback backrest. The visitor chairs are also available with or without armrests.

# GOOD SEATING IS A MATTER OF POSTURE.

**Wide opening angle:** for extensive, relaxed reclining.

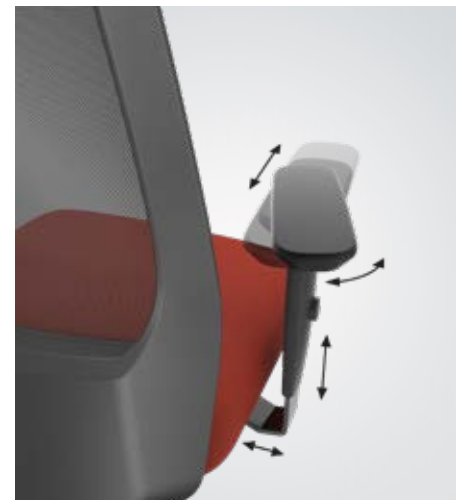

**Armrests:** the optional adjustable armrests are comfortable and relieve stress on the arms and shoulders.

**2D T-armrests** height- and width-adjustable

**4D T-armrests** height-, width- and depth-adjustable, rotatable

**Lumbar support with upholstered backrest:** the depth can be regulated using a handwheel situated on the right beneath the backrest. The height of the lumbar support is automatically adjusted with the height adjustment of the backrest.

**Lumbar support with mesh and chillback:** can be adjusted using two sliders at the base. The lumbar support strengthens the back where support is needed most.

**Seat inclination adjustment:** for quick and easy adjustment of the seat angle to suit the required working posture. Lowering of the seat at the front is particularly ergonomic.

**Seat depth adjustment:** ensures the right thigh support to suit the height of the user.

**Synchronous mechanism with weight regulation:** the backrest counter-pressure of the synchronous mechanism can be adapted to the body weight in seven stages.

**State-of-the-art mechanism with autolift system:** the return motion of the synchronous mechanism with fine adjustment of the backrest counter-pressure automatically adapts to body weight.

# ONE FOR ALL.

**The AIM<sup>IS1</sup> system:** with AIM<sup>IS1</sup>, you can put together your "well-being" chair in just six simple steps. You decide on the version and height of the backrest, the mechanism, the base, the castors and the type of armrest and the accessories. With its wide range of combinations, AIM<sup>IS1</sup> is the ideal solution.

#### T-Armrests

1 2D

2 4D

## Accessories

- 1 Upholstered headrest for high back
- 2 Upholstered headrest for low back
- 3 Coat hanger for both backrest heights

- 2 Soft double

# WHY YOU CAN MAKE THE CORRECT TARGETED DECISIONS WITH AIM<sup>IS1</sup>.

## ONE FOR ALL

The AIM<sup>IS1</sup> product range is broad in design. The wide range of versions make AIM<sup>IS1</sup> suitable for all workplace requirements. A broad selection of fabrics and colours also ensure that AIM<sup>IS1</sup> fits perfectly into any environment in visual terms.

## A SAFE DECISION

AIM<sup>IS1</sup> makes the decision easy. The product range has been well-received and the quality of the seating experience leaves nothing to be desired. The wide range of versions available offer plenty of freedom for planning. **The 10 year guarantee – even with gas springs – proves the high quality production of AIM<sup>IS1</sup>.**

## AN IMPRESSIVE PRICE-PERFORMANCE RATIO

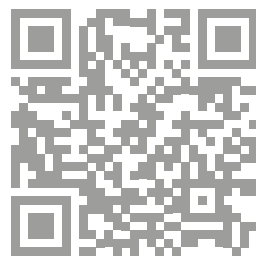

AIM<sup>IS1</sup> provides optimal comfort, developed seating technology, best quality 'Made in Germany' and top class design, all at a very attractive price.

**OUR INFORMATION  
FOR YOUR PEACE OF MIND.**

Whether for tenders, planning procedures or workplace concepts: we would be happy to provide you with all the facts on AIM<sup>IS1</sup>. See what AIM<sup>IS1</sup> has to offer in black and white. Scan the QR code and find all the information you need at a glance to download at [interstuhl.com/aim/productinformation](http://interstuhl.com/aim/productinformation)

**SPECIFICATIONS**

Whether the dimensions, weight, materials or benefits: The specifications contain an overview of all the information you need.

**CERTIFICATIONS**

The quality of AIM<sup>IS1</sup> can be proven. We have compiled an overview of all the certificates and test results for you.

**ENVIRONMENTAL FACT SHEET**

As with every Interstuhl product, we have also compiled a detailed environmental fact sheet for AIM<sup>IS1</sup> to document its environmental performance evaluation.

**OPERATING INSTRUCTIONS**

A good chair needs to be used properly. The operating instructions provide a step-by-step description of all the functions of AIM<sup>IS1</sup>. Of course, the operating instructions for each product are also available in printed form.

## Coat hanger and headrest:

AIM<sup>IS1</sup> leaves your mind free for your work. The optional headrest provides support, relieves stress from the head when in a reclined position and ensures relaxation when making telephone calls or holding informal talks. If required, the headrest can also be fitted with coat hanger for jackets or bags.

### Sustainability:

Environmentally friendly production and ecologically sound products are trademarks of Interstuhl. Both aspects have been meticulously taken into account in the development of AIM<sup>IS1</sup>. Interstuhl's environmental management meets the requirements of DIN EN ISO 14001. Total Quality Management has been certified in accordance with DIN EN ISO 9001 since 1993.

Up to 98% recyclable materials are used during the continuously environmentally-friendly production process, including a high proportion of natural materials. AIM<sup>IS1</sup> has a post-consumer recycled content of 26.9% and a pre-consumer recycled content of 10.6%. It is for good reason that the product range has been awarded the "Blue Angel", and that Interstuhl was one of the first companies in the industry to receive EMAS certification in 1995.

### Product design:

The renowned design studio ID AID from Stuttgart is responsible for the design of AIM<sup>IS1</sup>. All technical and aesthetic aspects of development must be taken into account with such a comprehensive range of office swivel chairs. Designer and founder Sven von Boetticher sees the AIM<sup>IS1</sup> range as a good example of the successful interplay of form and function. The design of the entire product range meets high standards of functionality, economics and aesthetics which dominate in modern business and also take account of the requirements of employees and the company.

Sven von Boetticher
